THE CAST

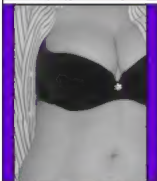

D. DIBRELL

Founder - Publisher - Editor in Chief

Jack Watson has over 30 years of experience in the visual arts. He is an award winning producer/film maker who uses still photography as an extension of his motion imagery. He has a client list for still photography that spans more than two decades. Jack's photos have been featured in *Full Throttle Magazine*, *Sport Aviation*, *Plane and Pilot* and *Playboy.com*.

Jack is an Editor at large for *Top Floor Magazine* and his stills have appeared in nearly ever issue over the last three years including a number of covers. He has also released a number of books that are listed within this publication.

Honey West is an Editor at large for *Top Floor Magazine*.

HW is also a writer of erotic books with a number of titles under her belt. She started with *TFM* as a provider of monthly erotic stories until moving from the world of erotica to interviews with a number of adult actresses and actors as well as radio host and other writers of erotica. She is also the creator of **Mistress Dark Angel** that has been featured in several issues of *TFM*. HW has also written several e-books including *Orgy Beach*, *Exam Day*, *Tanya's Treatment* and *Humorotica* which can be found at A1adultbooks.com.

Eddie Mc is an Editor at large for *Top Floor Magazine*.

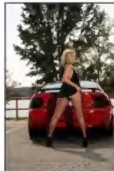

Owner of **kStudios**, Eddie has also been providing outstanding photography for *Top Floor Magazine* for more than three years. At *TFM* we like to think of Eddie as the man that started it all. He was the first photographer to give *TFM* the look that brought many of our other photographers on board.

His photos have been featured in several dozen issues as well as many covers over the last few years.

Fred Jennings is a good friend of *TFM* photographer Eddie Mc.

He recently moved to Pennsylvania and is working hard to help establish the *Top Floor* footprint in that state. His first *TFM* cover was for the April 2014 issue ft. Kaleena.

Shelby is the Director of Social Media for *TFM* and our first official Spokesmodel. She is helping to put *TFM* on the fast track to success!

Khloe Kardashian is definitely going the new booty record!

Since her split from **Lamar Odom**, we have featured her in this very gossip column grinding on rapper **The Game**, all hugged up with rapper **Rick Ross** and now with rapper **French Montana**...does that mean she is OFFICIALLY done with athletes?

French took her to check out a new pad he was thinking about purchasing and the two spent the night together at the **Pink Rhino** in Phoenix. Is she dating, banging or scouting potential clients for her sister's hubby Kanye?

The kid has gotten quite a reputation!

Justin Bieber has been denied entry into three of the hottest spots in Miami for two really good reasons - one, he's not 21 and two because the last time he left a Miami nightclub he was arrested for a DUI! Considering the press the **SET** nightclub got after letting Bieber get his drink on, that's a no brainer!

THE AMAZING SPIDERMAN 2 - MAY 2ND

For Peter Parker, life is busy.

Between taking out the bad guys as Spider-Man and spending time with the person he loves, Gwen Stacy, high school graduation can't come quickly enough. Peter hasn't forgotten about the promise he made to Gwen's father to protect her by staying away, but that's a promise he just can't keep.

Things will change for Peter when a new villain, Electro, emerges, an old friend, Harry Osborn, returns, and Peter uncovers new clues about his past

IN THEATRES NOW

Draft Day

On the day of the NFL Draft, general manager Sonny Weaver (Kevin Costner) has the opportunity to save football in Cleveland when he trades for the number one pick. He must quickly decide what he's willing to sacrifice in pursuit of perfection as the lines between his personal and professional life become blurred.

Cuban Fury

Beneath Bruce Garrett's shabby, overweight exterior lives the passionate beating-heart of a salsa king.

Bruce must learn how to unshackle his dancing beast, regain his long lost fury and claim the love of his life...and he's going to do it all On The Dance Floor.

Joe

Ex-con, Joe Ransom, is the unlikeliest of role models to everyone except 15 year old Gary Jones, the oldest child of a homeless family run by an drunk, worthless father. Together they try to find a path to redemption and the hope for a better life in the rugged, gritty world of small town Mississippi.

12 Years a Slave

A 2013 British-American historical drama film and an adaptation of the 1853 memoir *Twelve Years a Slave* by Solomon Northup, a New York State-born free African American man who was kidnapped in Washington, D.C., in 1841 and sold into slavery.

I will recommend this film on it's merits only...it won an award for Best Picture and that's it.

I don't understand why. It's a good film at best. Most of the characters are nearly impossible to relate to, some of the situations that Solomon is put in are almost laughable and you never get the feeling that he's ever in any real danger. A true tragedy for sure and maybe the book is better than the film but the film itself is a watered down version of *Roots*. A decent film but far from great.

Available on DVD and RedBox

The Wolf of Wall St.

This is the type of film that will actually make you believe that ALMOST anything is possible. At three hours it's a little long but worth the watch.

Lon Jon

It's hard to add this film to the skip it category because there are parts that are very entertaining. I guess it really depends on what you're looking for. If you are in the mood for top of the line soft porn with great acting, go for it and if not...**SKIP IT!!!**

Album of the Month

At the time of this writing **Ed Sheeran's** latest offering **X** only had one track to preview, it was a song titled **Sing**.

I have to be totally honest, there are few CDs that I would recommend based on one track, but Sheeran is an extremely talented individual so I feel comfortable putting my rep on the line for this one.

If the album is crap, which I doubt it will be, blame me!

Tracks to look out for - **Sing**.

That's What She Said...

Sunny Leone

When did you first realize that you were a squirter?

A long time ago an ex made me squirt and that was it. I was really embarrassed at first but it felt so good that I wanted it all the time.

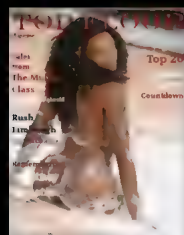

When it comes to sex in your personal life, would you say that you are conservative or liberal?

I have a lot of sex. I love when a man I am with likes to have a lot of sex. Relationships are based on great sexual chemistry. If your not having good sex and often then you need to change it.

What is your ultimate sexual fantasy?

To be blindfolded and have a man and woman fuck me.

COMMON SENSE

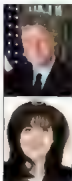

Before you read this, I need you to do something very important...**clear your mind!**

I won't make any type of snap judgments on what you know or what you've already read or heard if you are willing to clear your mind for a moment and read this without any predisposed ideology.

I'll wait...Okay, ready?

In the 90's during the Clinton administration Bill Clinton got a blowjob from Monica Lewinsky.

Without going into all of the details, Monica Lewinsky told co-worker Linda Tripp that she was having an affair with the President, Linda recorded the conversation and those tapes were turned over to Kenneth Starr who was already investigating Clinton on a number of other "scandals".

President Clinton testified and denied having any "sexual relations" with Lewinsky but the tapes and a dress with Bill Clinton's semen provided more than enough evidence to charge Clinton with perjury for denying the affair. This resulted in the U.S. House of Representatives impeaching the President.

The Senate failed to convict Clinton and he wasn't impeached.

At the time Democrats were the minority in both Houses of Congress

What does this have to do with common sense?

The point that I'm making is that Bill Clinton was guilty and there was no lie in the world that would have stopped that fact from coming to light.

Yet on a daily basis, we're exposed to rhetoric pertaining to the current administration where they have been found guilty without a single fact to support what they have been accused of.

Let's start with Benghazi.

On September 11, 2012 between 125-150 men attacked the American diplomatic mission in Benghazi in Libya and the following morning an attack on the CIA annex occurred. the result was the death of four Americans.

Initially it was thought that the attacks were a spontaneous protest against a video, it was later found that it was a planned terrorist attack.

What happened after?

- Several media outlets began blaming the President.
- During a presidential debate, Mitt Romney got caught in a lie after he claimed that Obama did not refer to the incident as a terrorist attack.

To this day, many republican think tanks and right wing blogs are still encouraging their audience to push for further investigation.

The investigation is over and there was absolutely nothing connecting the Obama administration with

the incident. Yet if you tune into Fox News you would think that there was still an active investigation going on.

What was found was...

- The State Department did not increase security at its sites despite warnings of possible violence.
- The CIA did not share information about the existence of its outpost with the U.S. military.
- The CIA and the State Department were not working out of the same location.
- Libyans charged with protecting the compound did not do their job.

Six republicans added an addendum to the report claiming that the Obama administration had delayed the report and wasn't being transparent.

"Information has been withheld from the Committee because of the 'ongoing criminal investigation' into the attacks, in an apparent effort to shield certain government agencies from congressional oversight or potential embarrassment," they wrote. - *Los Angeles Daily News*

The addendum was more about criticizing the administration than it was an actual part of the report or based in fact.

The right's media coverage on the "IRS scandal" just happens to be enveloped in the same types of factual flaws

If you listen and/or read their reports you would be easily lead to believe that someone in the Obama administration charged the IRS with the task of denying a number of right wing factions their rights to claim their organization as a 501 c aka a tax-exempt nonprofit organization.

There are so many problems with this that it actually makes my stomach cramp every time I hear it.

The facts are that the right wing organizations that applied for the tax exempt status are backed by billionaires whose organizations were in clear violation of the law and still they were not denied.

I'm not going to encourage you to read the law or read the list of GOP friendly groups that applied for tax exempt status like **Freedom Works**.

What I will ask is that you think for a second, this IRS thing has been investigated for a year using our tax money...what have they found?

Last but not least on my list in The Affordable Health Care and Patient Protection Act aka Obamacare.

This is an issue that the right wing media won't let die even though it was modeled almost word for word after a **SUCCESSFUL REPUBLICAN LAW**.

The right wing media coverage of this law has been just shy of shouting from every rooftop **"the world is coming to an end!"** It's been touted as the government snatching up the freedom of the American people.

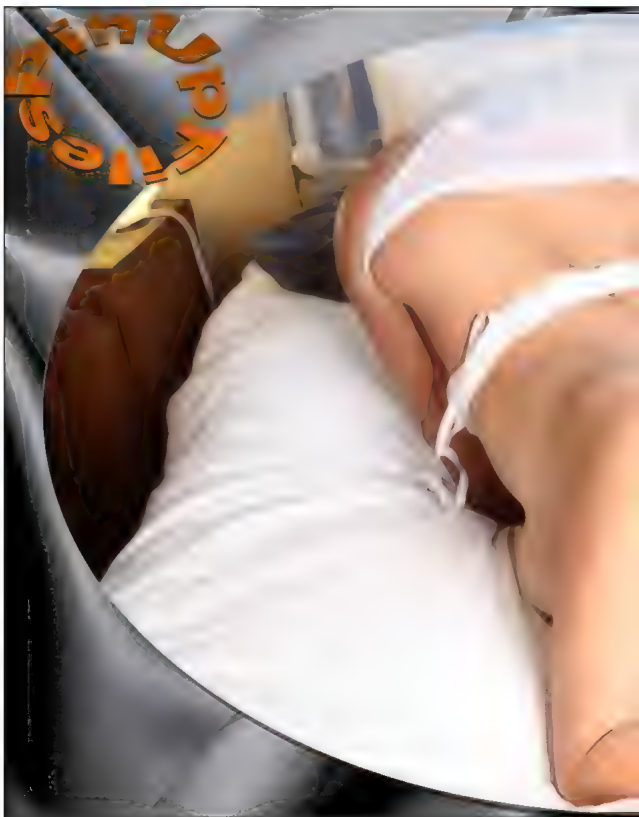

The fact is before this law, everyone with health coverage was already paying for those without coverage in the form of higher premiums and co-pays.

Yes, you were paying for those visits to the emergency room by those folks without insurance...or did you think they were free?

The problem I have with the outrage from those of us that don't bother to inform ourselves is that you don't have to have the internet or spend hours, as I have, reading the actual laws or reports. All you have to do is use a little common sense and Bill Clinton to come to a sensible conclusion.

If these so called investigations can turn up enough evidence to prove that Monica Lewinsky had her nose to the President's belly button why would you think for one second that if they had one sliver of evidence that President Obama or his administration had done **ANYTHING** wrong, they wouldn't have his head on a chopping block faster than a you could say gotcha?

They are feeding us false facts for a reason and I will leave to you to determine what that reason is. But I'll give you a hint...it starts with money.

Monica

The SCOTUS Strikes AGAIN!!!

Just when you thought it was safe to go back in the water...wait that's not it.

Just when you thought it was **safe to VOTE**...there we go!

In *McCutcheon v. Federal Election Commission*, the court overturned forty years of national policy to strike down limits on the amount of money an individual could contribute to federal elections and political action committees in any given election cycle.

This follows the same court's decision in *Citizens United* which gave corporations the right to "free speech" and therefore able to spend their corporate dollars to the benefit of their own political interest.

In the *McCutcheon* decision the **SCOTUS** gave the wealthy the upper-hand in our so-called representative government.

Put another way, the wealthy among us now have the ability to financially drown out the voices of more than 300 million Americans.

The Court majority also has, for all practical purposes, gutted laws, upheld by past Supreme Court decisions, which prohibited large "soft money" contributions to political parties. They also have eviscerated laws, upheld by past Supreme Court decisions, which prohibited federal officeholders and candidates from soliciting large contributions.

GO GET THE MONEY!

Chief Justice Roberts wrote in *McCutcheon*, "Any regulation must instead target what we have called 'quid pro quo' corruption or its appearance."

Basically, as long as our elected officials didn't sign a pledge that they would pass a piece of legislation based on X amount of political dollars - there's no need to limit the amount

Are you serious?

I just watched a film titled *Cheap Thrills*.

Here's the synopsis - A scheming couple put a struggling family man and his old friend through a series of increasingly twisted dares over the course of an evening at a local bar. Without giving too much away, each dare came with a price tag, if one of the friends would do X, the couple would pay him X.

Good or bad...that's life!

We get up everyday to go to work for \$X, when go through our daily lives and everything we want or need to survive requires \$X...if you want anything, just about everything will be \$X.

What in the hell would make the SCOTUS think that without maintaining a certain level of contributions that those who have can give and will give could be legal without causing major harm to democracy is beyond me.

Who's your daddy?

Our elected officials aka "representatives" are no longer working for us, there are REAL signs of that already!

- Unemployment for the long term unemployed...**GONE!**
- Background checks prior to gun purchases...**NO!**
- Increase in minimum wage increase...**NO!**
- Cut \$5 billion from the SNAP - food-purchasing assistance for low- and no-income people living in the United States ..**YES!**

- Public vouchers for education...**YES!**
- Publicizing prisons...**YES!**
- Stand your ground...**YES!**
- Guns for everyone...**YES!**
- Voter restrictions...**YES!**

All in the name of **FREEDOM!**

In a study conducted and published by Martin Gilens of Princeton University and Benjamin I. Page of Northwestern University it was found that in the United States of America out of 1,779 policy cases, narrow pro-change majorities of the public got the policy changes they wanted only about 30% of the time. More strikingly, even overwhelmingly large pro-change majorities, with 80% of the public favoring a policy change, got that change only about 43% of the time.

"The central point that emerges from our research is that economic elites and organized groups representing business interests have substantial independent impacts on U.S. government policy, while mass-based interest groups and average citizens have little or no independent influence," the study found.

The study also found: "When a majority of citizens disagrees with economic elites and/or with organized interests, they generally lose." - **Washington Times**

Thanks to The Supreme Court of the United States of America, our voice has been reduced to a whisper in "our" **DEMOCRACY!**

Of course, the obvious solution to this problem is for each and everyone of us to get out and vote. Good luck with that in the states where they have claimed there is voter fraud without providing a single statistic to prove it.

Betcha' didn't even think about that one.

Okay, let's assume that there is a need for all of these new voter ID laws because there is actual fraud, just show us the stats that **prove it** and we'll move on.

The only problem is that they won't because **there isn't any!**

The other challenges that we face come from uninformed voters.

Let's start with the obvious - **80% of Fox News viewers are completely uninformed.** They will cite the most outrageous political ideology as fact.

I've recently noticed that the **ignorance is running rampant.** If I open up the "Letters to the Editor" of my local newspaper, I've noted that there are more and more local folk writing in to the editor reciting the latest bullshit that they've heard from the Fox News...uh, analyst?

It's taken a very concentrated effort put forth by the media that have people believing -

- You will have to have a scanner inserted into your skin when you sign up for Obamacare
- The federal government spends 50% of it's annual budget on waste
- The POTUS is a socialist Muslim born in Kenya
- Hardly anyone that has signed up for Obamacare has paid their premiums
- One house of Congress can repeal the health care law - the House has voted for than forty times to repeal a law that the POTUS has the power to veto.

- The government spends 30% of it's annual budget on foreign aid - the real percentage is 1%
- Global warming doesn't exist
- Benghazi was a cover up by the Obama administration.
- The IRS was targeting republican groups
- Obama has doubled the deficit - the fact is the Obama administration has almost cut the deficit in half.
- Tax cuts for the wealthy stimulate the economy more than food stamps or unemployment insurance.
- There are Obamaphones

The list goes on and on...without providing one **FACT** to support one word of this ignorance.

The problem IS that each and every one of us has the right to vote and like a loaded gun there are some of us that are standing in line at every election armed with enough ammunition to shoot down the hopes and dreams of every American in favor of a social class that they aspire to become a part of.

The Supreme court decision has allowed the wealthy in this country the right to completely ignore what is right and just in this country and literally buy legislation that will add to their bottom line.

Goodbye Democracy...Hello Oligarchy!

Honey's Guide to Erotica Writing

Actually, this isn't a formal "how to" guide - it's a few of my personal observations about writing adult books. . I always loved to write and had a background in English, but was frustrated and fed up with mainstream publishing. In the pre-internet days, it was a closed society with a lucky few getting published. . Today it's a different world, a level playing field. Indie authors are now able to see their words in published form, expressing their personal fantasies in ways none of us could have imagined even five years ago. I'm sure the entrenched "professional" writers feel threatened by all this and don't like the growing competition from independent presses and self-published authors, but it's opened up a world of fresh, creative and unique voices that otherwise would never be heard.

A few years ago, a friend suggested that I try writing erotica, which at first seemed like a crazy idea because I was never into traditional erotica/romance writing. Frankly, I don't even like the word "erotica", it's so overused. I knew I'd never fit that into that tidy niche. I wrote my first ebook, "The Conspiracy Clinic", somewhat as a "just for fun" thing, but I found that I really enjoyed the serious process of writing, and made a few sales. From then on, I was hooked! People sometimes ask my advice about writing adult books, and I'm always happy to share what I've learned. I'm not an expert by any means. I just know what I like and what I don't like, and have learned a few things along the way. These are not suggestions on how to market or publicize your book - that's a huge topic of its own. These are general insights. about writing good smut.....um.... excuse me.....erotica!

GET A POV

Sorry to disappoint, but POV doesn't stand for "penis on vagina" lol.....it means Point Of View. I think every erotica/sex writer needs a strong point of view - what is the reason you're writing what you're writing? All exciting stories tend to have an underlying meaning, whatever that may be. Even if it's "just for sex", it must mean something to you personally, to your inner sexual self. If it does, I guarantee, your writing will be a lot more authentic and interesting. So, before you even start, you should explore your own motivations, your worldview. If you discover that you really don't have a POV.....well, maybe you should get one!

K.I.S.S.

Keep it simple, stupid! Unless you're a masterful, highly skilled writer and have been at it a long time,

don't try to write above your ability or get into topics or areas that you don't have a passion for in the sexual realm. Keep your sentences short and clear. Less is more! Get rid of the unnecessary flourishes and embellishments and overdone language that tends to seep into sex writing. Some of the so-called erotica out there seems more like a dull travelogue than a sexually stimulating ride. So my advice is to Kiss, Kiss, Kiss!

WRITE YOUR FANTASIES LIKE A SEXY EMAIL

Here's the deal on this: I have several acquaintances (who shall remain nameless hee hee) who write amazingly depraved, hot emails, flawlessly describing their everyday sexual fantasies and escapades in ways that are absolutely amazing! But when they sit down to "formally" write, suddenly the hotness vanishes, the descriptions become stilted and phony and completely UN-hot. Weird, uh? I knew these people were capable of good writing, because their emails were so freakin arousing! So, I advised them to write as if they're writing a sexy email to their closest confidante. I've noticed that many people put on their official "writer hat", as if that's somehow different from everyday, flowing, authentic writing. It really isn't. Always try to keep that real quality alive in your writing, and you'll see what I mean!

DUMP THE F, C, and B-BOMBS

I read a story the other day where literally (and I mean literally) every other word was "eff" this and "eff" that...or "You c--t!" or "Suck my c---k you b---!" Seriously? Most of the hottest writing in the world doesn't contain a single "f", "c" or "b" word, or any profanity at all. With the barrage of hardcore porn out there, these words aren't shocking to most people anymore anyway, so why rely on them as if it's a big turn on? They aren't hot - they're merely dull. This problem has grown to epidemic proportions in adult writing. Yeah, there's a time and a

place for it, but it's best to think of these words as salt and pepper. Too much, and your food is ruined. Too little, and it's bland. Either way, you can't eat the food! So use sparingly, only when it really adds some "kick" to the sexual spice. Otherwise, it's just...

UM...DON'T FORGET THE...UM.... SEX!?

Well, DUH! This advice should be obvious, right? But unfortunately, a lot of erotica in the mainstream world, written primarily by women for women (sorry ladies!), consists of endless pages of wordy descriptions and scene setup. The reader who paid good money for this lame stuff might actually...<gasp>.... eventually <sigh>..... after many many pages.....finally read a couple of<WOW!> vanilla sex scenes or maybe a couple of hardcore scenes thrown in to justify being called "erotica". Personally, I don't waste money on rip-off "mommy porn" and I've never understood how it sells. Apparently someone out there buys it, but if you call yourself a writer of sex, don't forget to include the.....um....sex?

TURN YOURSELF ON FIRST

If your writing doesn't even turn YOU on, how can you expect your reader to be aroused? Are you writing to please other people or what you think "sells" or is commercial/marketable? If you're turned on, your writing will naturally tap into that very hot, very wet source, drilling down into the inner depths of your own sexual experience, making it a helluva lot more creative and entertaining than if you were simply writing for some faceless unknown "market" out there. Please yourself first!

It's supposed to be pleasurable to write adult erotica, not a chore!

YOU ARE A W.I.P.

No, that's not a weird new sex fetish! It's a Work In Progress. Unless you're talented enough to be a brilliant writer from the jump, which most of us definitely are not, accept the fact that you are a work in progress. Set your fragile ego aside and realize you're always learning, always growing. You aren't a finished product just because you wrote 20 pages of sex stuff or because your friends think it's great. Understand that you might start your writing career going in one direction and later decide it isn't a good fit and switch to a sexual style closer to who you really are and what really turns you on. If mainstream erotica isn't your thing, try writing hardcore bondage or fetish or whatever rocks your world. It's a journey and getting there is ALL the fun!

TAKE A WRITING CLASS

Okay, I hope this doesn't sound too 19th century, but it's still a good idea. The level of literacy today is downright abysmal. True, we have spellcheck, but we don't have a magic computer genie that fixes bad grammar or substandard sentence construction. . . Bad writing is bad writing. Writing is a craft. It's an art form. If you're serious, it's worth your time to take a few classes and let a professional writer or copy editor look at your work and give you the scoop on where you need improvement. Remember - even professional writers need editors! Above all, don't allow a bunch of Facebook fans to stroke your ego so much that you actually believe their b.s. Don't even let a few great sales figures convince you that you have massive talent or you have nothing left to learn. There's sucky writers that make a lot of money and fabulous writers that make nothing or very little, so always strive to do your personal best from the technical standpoint.

SEX WRITING IS HARD

No pun intended (lol)...but it is quite hard! Or perhaps I should say difficult? Apparently, many people think it's sooper dooper easy to throw some hot words on a page and voila! Instant orgasms for everyone!

They think it just flows onto the page like wet sexy goo. Nope! I've found that the most challenging writing of all is erotica because everyone's experience of sex is different, every person has their particular kinky fantasies and dreams and lustful tastes. It's not easy to arouse another person's heart or mind or body and that's putting it mildly. You can't please all the people, all the time. So, don't be frustrated or give up if your beginning work isn't the best. It takes time to find your groove, baby!

READ OTHER SEX WRITERS

Don't steal from them or copy them, but don't ignore what other people are writing. It can be a real eye-opening, mind-blowing experience. I've gotten huge inspiration from reading other people's work. It's given me perspective and motivation I wouldn't have had in a million years if I'd stayed in my own little mental bubble. There's tons of excellent sex story and writing forums online and you can get a lot of feedback and ideas. Get a feel for the overall erotica scene before you jump in with both feet (or other tender vulnerable body parts!)

THINK OUTSIDE THE BOX

Don't be afraid to explore the entire realm of sex writing - bdsm, gay/lesbian, interracial, hardcore, softcore, mainstream romance - everything. Don't shut out the possibility of writing in a specific niche or genre, even if at first you think it's not for you. That's part of the exploration. Writing for people who have threeways slathered in mayonnaise while watching Ann Coulter might be your very special, kinky audience! lol...in other words, keep an open mind about who or what your audience is!

WRITE WHAT YOU KNOW

The tried and true advice of "write about what you know" is tried and true for a reason - it works! I'm not saying you should stick to everyday, dull life in your writing, because let's face it, except for porn-stars, most of us aren't having orgies 24/7. However, if you've never been a lifestyle in the BDSM scene, why would you even attempt to write about it on that level? Readers of that genre are very picky and know what they like. There are some sexual worlds and scenarios you almost have to experience in real life to write about them convincingly. If you've never been in an orgy, you'll probably concoct a rather silly depiction of it, invented from your own limited imagination. We all have personal, interesting experiences, so use that for your inspiration instead of the 50-man gangbangunless of course you've been in a 50-man gangbang!

FUCK THE CLICHES

See? I used the F- bomb here in an appropriate way, because I truly am sooo effin tired of cliched sex writing! C'mon, how many times can the same worn out stock phrases be rehashed, particularly in mainstream erotica aimed at the hetero audience: "The manly hunk stared into her intense sky-blue eyes, hungrily licking the nape of her neck, slowly moving down until he reached her heaving, moaning, erect -nipped breasts as her back arched in pleasure.." Hey, that's actually not too bad! Just kiddin! It's awful. It's a lame, horrible style of writing and unfortunately, this junk is everywhere. So, eff it!

GET OVER YOURSELF!

In my humble opinion, one of the biggest turn-offs is erotica that takes itself too seriously. Scenarios that are so full of overdone pompous attitudes and unrealistic situations quickly lose any link to hot sexuality or kinkiness. The goal of a sex writer is to turn the reader on, not to sound like Hemingway or The Greatest Writer In The Universe. Sometimes, an undertone of sardonic humor can work better.

Above all, don't be afraid to be politically incorrect. Taboo remarks, situations and settings that are NSFW is what it's all about! It's amazing how many erotica writers suddenly become overly careful about using certain words that might offend somebody, not just in the sexual sense, but in the political sense, both on the conservative and the liberal side of the fence. I'm surprised by how often certain erotica writers get their panties in a wad over "controversial" racial or sexual terms or situations. That's pretty damn hypocritical. Therefore, my advice is: don't worry about what some tightass thinks about what you're describing sexually or if you're being politically or socially incorrect. It's your vision, your fantasy and your hot ride, so don't act like a "sissy boy" and be afraid to take your readers where you want them to go.

Which leads me to the most important advice.....

STAND UP AGAINST CENSORSHIP

You're going to run into a lot of it along your ride. As of this writing, Amazon and Kindle are on yet another censorship rampage, blocking and removing thousands of adult-themed titles, particularly targeting bdsm-themed material. I've protested their censorship in the past and I'll continue to stand against it. Email the "big boys" at Amazon and let them know you're fed up with their Big Brother rampage. In the meantime, if you can't find the adult books you want, STOP buying at Amazon and download from independent online adult ebook retailers, most of whom allow you to download directly to your Kindle and numerous other formats. We do not need Amazon! There's a growing movement of author's co-operatives out there such as www.tabooeading.com and others, so please check into them! Adult writers and readers unite!

Jack Watson's Complete Guide to Creating Black and White Female Glamour Images - From Nudes to Fashion

Jack Watson's Complete Guide To Creating

Includes CD-ROM with all images

Black and White Female Glamour

Images From Nudes To Fashion

By Jack Watson

Award-winning photographer Jack Watson has crafted a unique book dedicated to female glamour images created in black and white to honor the famous Hollywood stills photographers of the 1920's and 30's. With the help of a large collection of stunning glamour models who have been featured globally in many print, web, and video media including *Playboy Enterprises*™, Watson shows you how he creates sensuous, seductive glamour black and white images out of virtually any color glamour photograph. Dispelling the myth that not all color images make good black and white images, this book illustrates how virtually any glamour photo to create the look of the Hollywood masters.

Jack Watson's Complete Guide to Creating Black and White Female Glamour Images includes a CD with every photo in the book. All of the black and white photos started out as color digital files. They have been provided in their original color form for your unrestricted non-commercial use. This book is for those who have some basic Photoshop skills and want to broaden their horizons and experiment with additional plug-ins and software such as Nik Color Efex Pro Complete, Nik Silver Efex Pro, Topaz Adjust, and Topaz BW Effects. It's also for anyone who just loves looking at beautiful black and white female glamour images.

While most of the images in the book are "sexy" in nature, a number of examples show how sexy is not always the naked truth, but quite the contrary. Clothed or nude, the female form is a thing of beauty. At the very least, this book will make you rethink what is truly glamorous. Creating black and white glamour photos will help you see with your brain and feel with your heart. Remember it's not what you see in a photograph that moves you; it's what you don't see. So, boot up your computer, open your favorite photo software, and put the CD in the drive, and create some magic.
